MASTER PROGRAM IN ECONOMICS

CONCENTRATION ISLAMIC ECONOMICS AND FINANCE

With B Accreditation

OBJECTIVE OF THE MASTER DEGREE PROGRAM

The developing of ethically based (especially Islamic) economy in the global world has encouraged people to learn more about what exactly it is. Aware of need to respond to people who want to have further study in this field, Trisakti University built a high commitment with many experts worldwide to provide the Master of Economics (ME).

The program has based and implemented Tawhidi Epistemology as the way to approach and design Islamic Economics Finance. This program is designed to produce graduates who would possess not only intelligent but also integrity as scholars and professionals. In these respect, the program will also build the skills and expertise as well as professional orientation in Islamic Economic with global view. This rigorous and intensive nature of lectures in the IEF courses with particularly benefit the reconstruction mind of the ummah (world -System of Islam) by serious quantitative or quantitative oriented. The method demand is heavy on IEF program at the level of intellectual preparation. In the applied field the IEF program will be using system models computer and scientific treatments.

This academically inclined students will use the knowledge gained from a combination of course work and dissertation writing to pursue new knowledge in Islamic Economics & Finance. The professional oriented student can apply the knowledge gained to institutional, business and corporate decision making, and supervisory leadership in the private and public sectors.

OVERSEAS SHORT COURSE PROGRAM

IEF is also undertaking a short study program to several countries :

1. Kuala Lumpur, Malaysia in IIUM (International Islamic University of Malaysia)
2. Markfield, London, UK in MIHE (Markfield Institute of Higher Education)
3. Melbourne, Australia, in La Trobe University.
